# Child Safety Seats

- ▶ Buckling up is the single most effective thing you can do to protect yourself and your passengers in a crash. It is extremely important to make sure all children riding in your car be properly secured before every trip.
- ▶ Thousands of children are injured or killed every year because their child passenger safety seats are not installed properly. Remember, most collisions occur within a mile of the home - so buckle your child in a safety seat for every trip, no matter how short.
- ▶ If you're not confident of how to properly secure your child in a safety seat, contact our local Department of Emergency Services Bldg. 334 / 380-1911 and ask about child passenger safety.

# Need financial assistance with purchasing a child car seat? Maybe AER can help?

- ▶ First you will need to fill out your packet; AER Form(s) 700 and 57. You can find the forms here:
- ▶ AER Form 700:
